The figure is a radio astronomy contour plot. The horizontal axis is Right Ascension (RA) in J2000 equinox, with labels at 5<sup>h</sup>36<sup>m</sup>30<sup>s</sup>, 24<sup>s</sup>, and 18<sup>s</sup>. The vertical axis is Declination (DEC) in J2000 equinox, with labels at -6°21', 22', 23', and 24'. The plot shows two sets of contours: blue and red. A dashed blue line runs from the upper left towards the center. A solid black line runs from the center towards the bottom right. Several black stars and dots are scattered across the plot, with a cluster of stars in the upper right. A scale bar in the bottom right corner indicates a length of 0.1 pc.
